

## DUCKHAMS QS 5W-40 MRV

### PRODUCT DESCRIPTION

Duckhams QS is a range of high-performance engine oils, formulated using modern additive technology and high-quality virgin base oils to meet current specifications and provide advanced protection for modern passenger cars.

Duckhams QS 5W-40 MRV is a synthetic technology, high performance 5W-40 oil, for petrol and diesel vehicles including those with fuel injected and multivalved engines.

### FEATURES AND BENEFITS

- Synthetic technology 5W-40 formulation offers high performance and optimal protection for both petrol and diesel engines in various driving conditions.
- Formulated with modern additive technology and high-quality virgin base oils to enhance engine protection and reduce wear over time.
- Suitable for both petrol and diesel vehicles, including those with fuel-injected and multivalve engines, providing versatility for a wide range of cars.
- Meets current specifications, ensuring the oil complies with the latest industry standards for advanced protection and improved engine efficiency.
- Reduces engine friction and wear, promoting longer engine life and reliable performance even under heavy loads or high temperatures.
- Improves fuel efficiency and enhances engine responsiveness, contributing to a more eco-friendly and cost-effective driving experience

### SPECIFICATIONS AND APPROVALS

Recommended for vehicles requiring 5W-40 oils meeting the following specifications:

**ACEA A3/B4; API SP/CF MB 226.5, MB 229.3, MB 229.1; RN0700, RN0710; PORSCHE A40; PSA B71 2296; Fiat 9.55535.M2; GM-LL-025-A / B; VW 502 00 and VW 505 00**

## TYPICAL PHYSICAL CHARACTERISTICS

Test	Unit	Typical
Density @ 20°C	Kg/m3	0.853
KV100	cSt	13.7
KV40	cSt	83.2
VI	-	170
CCS	cP	5918
TBN	mgKOH/g	11.1
Zn	%	0.104
Ca	%	0.128
Colour	Visual	Clear Amber
Flash	°C	212
Pour Point	°C	-39

Typical physical characteristics are provided as an indication of properties based on current production data only, and should not be construed as a specification. Acceptable variation may occur during the manufacturing process without affecting the performance of the lubricant. This data can change without notification. Current version of this data supersedes all previous versions.

## HEALTH, SAFETY AND ENVIRONMENT

Based on available information this product is not expected to present a significant health and safety hazard when used in the recommended applications and in accordance with the recommendations in the Safety Data Sheet. Safety Data Sheet available on request through your sales agent, or from the internet. Avoid prolonged or repeated contact with engine oils. Wash skin thoroughly after contact.

Protect the environment. Dispose of product and packaging in accordance with local regulations.

## STORAGE AND HANDLING

Packed lubricants should be stored under cover. Where outside storage of drums is unavoidable, they should be laid horizontal to avoid water ingress. Product should not be stored in direct sunlight or excessively high, or low, temperatures. Duckhams can provide professional advice on the storage of lubricants.
